

In this document, we outline the hierarchical and functional structure of Code Craft, also referred to as "the Company." The primary aim of this structure is to streamline operations, define specific roles, and promote effective collaboration among team members.

#### CEO (Chief Executive Officer)

Name: Vladislav Cernega

##### Responsibilities:

- Defining and overseeing the strategic direction of Code Craft.
- Serving as the company's representative in all external communications and partnerships.
- Ensuring the smooth execution of internal operations while upholding the company's culture and values.
- Holding the ultimate authority in making critical company decisions and approving projects.

#### Web Development Manager

Name: Nurbolot Kanybek Uulu

##### Responsibilities:

- Managing the entire lifecycle of web development projects.
- Collaborating with the CEO on strategic project coordination.
- Researching and staying updated on the latest web development technologies and trends.
- Coordinating closely with designers and UX managers to ensure seamless project implementation.

#### Design and User Experience (UX) Manager

Name: Tilek Ulan Uulu

##### Responsibilities:

- Leading the design department to ensure a user-friendly interface and an attractive website appearance.
- Maintaining a strong collaboration with the web development manager to align design with server-side functionality.
- Keeping abreast of the most recent UX trends to enhance user interaction and conversion.
- Managing feedback and making iterative improvements based on user testing and analysis.

Additional Information:

The CEO plays a pivotal, multitasking role, overseeing all aspects of Code Craft's operations and facilitating collaboration between the two core departments.

Regular meetings are conducted to ensure consistency, uninterrupted communication, and synchronization among the three principal team members.

Despite clearly defined role distinctions, employees from all departments are encouraged to work together to enhance the overall spirit of teamwork.

This structure has been designed to be flexible and efficient, taking into account the economic aspects of Code Craft while ensuring optimal productivity.
